We had a large run of cattle for our sale Friday April 17 with good buyer interest. The bulk of the cattle weighing 700 lbs and down was new crop fall calves which sold at fully steady prices. Heavier stockers and feeders also sold at mostly steady prices on the kind offered. We had several consignments of cow calf pairs selling with buyer paying close attention to quality, body condition and calf size. Fall bred hfs were getting a lot of attention. Cull cows sold fully steady while the bulls sold spots \$5 lower.
